

May 25, 1973

SENATOR BURBACH: I know of no case in Nebraska where there is any dispute in the court at the moment. I know of none. The Norden case has been decided. It was decided in the affirmative by the district court and it was declined or acknowledged in the negative by the Supreme Court, but other than that, I know of no action in the State. This would reaffirm our convictions that those properties in a property bonded warehouse, and was interpreted by a floor discussion here at that time, it would assure them that this body was sincere in its efforts and that 534 would take over, at its operative date, which would not be before January 1.

PRESIDENT: Any further discussion of the resolution? Any further discussion? Question is then, shall the resolution be adopted? All those in favor vote aye, all those opposed vote no. Motion does need 25 votes for its adoption. Voting on the adoption of legislative resolution 88, as explained by Senator Burbach. Once again, have you all voted? Clerk will record.

CLERK: 28 ayes, 1 nay, 20 not voting Mr. President.

PRESIDENT: The legislative resolution #88 is adopted.

CLERK: Mr. President, an explanation of vote by Senator Anderson (Read) Mr. President, a motion, I move to approve the study committee for the interim period as recommended by the executive board to the legislature, signed Senator Carpenter.

PRESIDENT: Chair recognizes Senator Carpenter.

SENATOR CARPENTER: Mr. President, this is a motion to adopt the recommendation of the executive council. In the reference to the various standing committees of those resolutions introduced by the various members of the body. I think that we understand that we have no more standing committees. There all, no more interim study committee. They are all referred to the standing committee. It would be understanding I believe of this body, an executive council. That merely because a resolution was referred to a standing committee, didn't necessarily mean they were going to study it. That would be up to the determination of a majority members of the committee. Just like a bill would be, except there is no appeal in that final decision because this body would not be in session. So I ask that we adopt the suggestion of the executive council.

PRESIDENT: Any further discussion of the motion? Question then is, shall the motion be adopted as explained by Senator Carpenter. All those in favor vote aye, all those opposed vote no. Motion is to approve the study committees. Once again, the chair would inquire if you have all voted? That is better Senator. Clerk will record.

CLERK: 35 ayes, no nays, Mr. President.

PRESIDENT: The study committees are adopted. Chair recognizes Senator Burbach. For what purpose did you want to be recognized Senator?

SENATOR BURBACH: Point of personal privilege.

PRESIDENT: State your point Senator.

SENATOR BURBACH: Mr. President, members of the legislature, I would like to make a report to this body at this time, why a delegation which is set up on the floor of this body, that a group go back to Washington to see about the feed grain program and certain changes in this program. Prio to going, or we would just not go, but after this program was set up on the floor, a committee was assigned to this responsibility
